

BIOTREATMENT OF SEPTIC TANKS, ALL WATER TYPES

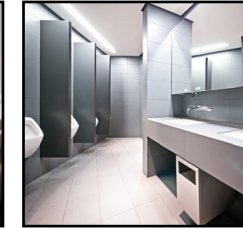

BIOFOSS 2

BATHROOMS

ACTION

- Biotreats

INNOVATIVE:

- Active formula enriched in bacteria and bio-surfactants ensuring TRIPLE ACTION treatment:
 - Liquefaction of organic matter
 - Prevents the risk clogging in tanks and inspection chambers.
 - Removes unpleasant odours.
- Ensures cleaning and sanitation facilities are 100% effective without the use of chemical/clearing processes.
- Improves the biological cycle essential to the effective operation of septic tanks.

PROTECTS:

- Prevents the obstruction of drain lines, inspection chambers and sumps and allows the free flow of water.
- Action guarantees the quality of infiltration water at a time when pollution problems are topical and affect all of us.
- No hazard warning icon. Environmentally-friendly, user-friendly.
- Prevents and treats.

ADVICE:

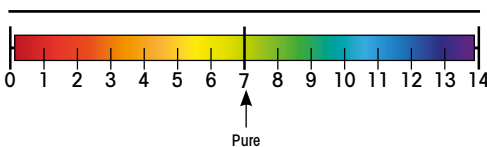

- Used for all septic tank and water types, sumps and inspection chambers.

PACKAGING:

Bucket
1 Kg

pH :

INSTRUCTIONS FOR USE:

- Use a shock or start dose for the first use.
- Subsequently, use the maintenance dose on a weekly basis.
- No. people:
 - 0 to 10: 120 g (shock dose)/35 g (maintenance dose).
 - 10 to 50: 500 g/150 g.
 - 50 to 200: 1700 g/500 g.
 - 200 to 500: 3000 g/900 g.
- Maintenance dose: 20g/m³.

PROPERTIES:

- Fine grey/beige powder.
 - Bacteria and enzymes from selected strains. Nutrient agents to ensure bacterial awakening.
 - Granulometry between 0.8 and 160 µ.
 - Contains biodegradable matter*. More than 60% biodegradable surfactants as per current legislation.
- *Not an organic farming product.*
