CLEANSING AND
PROTECTION FOR THE HANDS

ACTION

- Cleans your hands

INNOVATIVE:

- *EXCLUSIVE IPC BIOTECHNOLOGICAL FORMULA combining biosurfactant technology with the power of pumice and vegetable solvent.
- Ultra effective for cleaning and degreasing even the dirtiest of hands.
- Forms a protective film after rinsing.
- Long-lasting scent.

PROTECTS:

- Free of plastic microbeads.
- Safe for the skin even during frequent use.
- Biosurfactants: • Compatible with skin pH. • Non-irritating. • Doesn't dry out. • Rinses easily with water.
- Conforms to the European cosmetic legislation.
- Contains no micro-organisms.

ADVICE:

- Removes grease, fat, brake dust, hydrocarbons...
- Ideal for industrial and automotive workers, mechanics, technical workshops, etc.
- Used with the ECOPOCHE distributor: • Highly resistant over time. • Easy to use. • No clogging. • Easy to refill. • Practical push button.

INSTRUCTIONS FOR USE:

- Do not wet your hands.
- Place a small amount in the palm of your hand.
- Rub until any dirty marks have dissolved.
- Rinse well with water.
- The protective film can be removed by washing your hands.
