

FLOOR RENOVATING DEGREASER FOR FLOOR-CLEANING MACHIN

BIOSUR*
AUTOLAVEUSE

FLOORS AND SURFACES

ACTION

- Degreases floors

photo: non-binding

INNOVATIVE:

- Concentrated non-foaming formula provides deep degreasing of all types of floor covering.
- Enriched with vegetable waxes to restore radiance and shine to the dulled of floors.
- *Contains biosurfactants (natural surfactants made by micro-organisms) that are even more effective at emulsifying fats/grease than chemical equivalents on the market.
- Releases a pleasant scent of cleanliness and provides long-lasting limiting of settling tank odours.

PROTECTS:

- No hazard warning icon. Environmentally-friendly, user-friendly.
- Formulated to limit the risk of allergic reactions.
- Extends the service life of equipment: preserves joints and tubing. Avoids scale deposits.
- Packaging 100% recyclable.

ADVICE:

- | Suitable for use with floor-cleaning machines.

INSTRUCTIONS FOR USE:

- Machine cleaning (scrubber-dryers, floor buffers...): dilute 1 to 3% of the product depending on the hardness of the water.
- For heavily soiled areas, dilute up to 5%.
- 20L of BIOSUR AUTOLAVEUSE = 27 x 75L machines or 60 x 35L machines.

PROPERTIES:

- Translucent white liquid.
 - Density at 20°C: 1.022 g/cm³.
- *Not an organic farming product.*

PACKAGING:

Can
5 L
